REACH DECLARATION for PRIPLAK® products

Dear Customer,

We did receive your request concerning REACH regulation, especially relating to the update on February 4th 2026, of substances from the “Candidate List of Substances of Very High Concern (SVHC) for Authorization”.

As a user of chemical products, we are not directly responsible of any pre-registration and/or chemical substances evaluation used in our products composition.

However, PRIPLAK ensures that all raw materials used in the manufacturing of PRIPLAK® products delivered to your company, do comply with the current REACH requirements.

Based on our current knowledge and on the declarations of our suppliers of raw materials, our products do not contain any of the substances included in the “Candidate List of Substances of Very High Concern (SVHC) for Authorization”, in a concentration above 0.1%.

Caroline FOULON

R&D and Product Quality Manager

Information contained in this document are based on data given by our suppliers and on the present state of our knowledge. They are given in good faith and considered as correct.

Please note that this information must not be extended to end products: it is the responsibility of the manufacturer of the finished article to ensure that a product is safe, lawful, and technically suitable for use in the intended applications.

This declaration is valid until the next relevant regulatory change.
